COPY 2 OF 2

8 January 1959

SUBJECT: Flight Test of B Configuration

TO: Contracting Officer

25X1A
25X1A

25X1A

Reference is made to my telephone conversations with [REDACTED] on 6 January 1959. This office was notified by [REDACTED] on 6 January 1959 that B Configuration, Serial No. 14, will be ready for flight test at Edwards on 12 January 1959. [REDACTED] was contacted immediately in regard to scheduling this equipment for flight, and it was learned that no problems exist in this area. The flight test of the configuration will consist of at least one and possibly two flights, with an anticipated completion date of 16 January 1959.

Since the team of Hycon personnel assigned to Edwards on a permanent basis was withdrawn effective 31 December 1958, you are requested to issue such authorization as may be necessary under Contract No. HC-450 to permit the contractor's personnel to perform the flight test of this B Configuration.
